Bambi Galore, Hamburg (DE) May 26, 2023

COBRA CULT

Straight forward, intense, and riff based hard rock influenced by punk and metal sums up the sound that is Cobra Cult. Heavy guitars, catchy harmonies and personal vocals that stand out to give the band a unique sound like nothing else out there. A perfect blend that breathe recognition of the glorious 80s but with a whole that feels new and fresh. Or as they say in Germany: "a perfect mix between Motörhead and The Hellacopters".

Cobra Cult was formed in Stockholm, Sweden late 2015 and are an intense live performance act who have toured throughout Sweden, England, Norway and Germany. The band is signed to Swedish record label GMR Music and have worked with Tomas Skogsberg (Sunlight studio), Joel Grind (Toxic Holocaust), Robert Pehrsson (Robert Pehrsson's Humbucker, Imperial State Electric etc) to mention a few. Cobra Cult have supported and shared stages with bands like Riot City, Seven Sisters, Cobra Spell, VA Rocks and The Sewergrooves amongst others.

"There are bands you ponder, and then there are bands you just rock out to. Cobra Cult are unabashedly the second type and that type are generally both unpretentious, and fun to listen to ... This is the type of band that slips easily into most any Rock/Metal festival, and once they make their way to America i'll be glad to know they are worth checking out live and make Cobra Cult a part of my schedule"

"The eight songs fly by with a mid-tempo intensity that is stirring ... just heads-down, uncomplicated, three-chord metal done right ... a very good debut".
