

# HARD ROCK FROM STOCKHOLM, SWEDEN!

**NEW 4-TRACK EP COMING IN 2025!**

## REVIEWS

*"This sound, which is equally inspired by THE RAMONES, MOTÖRHEAD, BACKYARD BABIES and SOCIAL DISTORTION, is what the four-man, led by the roaring Johanna Lindhult, know how to serve in a casual and hearty garage style and exudes the real compulsion to see this troupe live at the earliest possible opportunity".*

– **Underground Empire (DE)**

*"With their second album, Cobra Cult bring oxygen to the music scene, delivering good old hard rock that never disappoints and engages the listener from the very first track. Cobra Cult is the type of band that i would like to see on stage soon, possibly in a sticky crowd, with a warm beer that i would'nt mind to spill because i am too busy enjoying the show".*

– **Metalrules.com**

*"There are bands you ponder, and then there are bands you just rock out to. Cobra Cult are unabashedly the second type and that type are generally both unpretentious, and fun to listen to ... This is the type of band that slips easily into most any Rock/metal festival, and once they make their way to America i'll be glad to know they are worth checking out live and make Cobra Cult a part of my schedule".*

*"Cobra Cult absolutely crush".*
